Software Development Agreement

Effective 7 October 2026

DEVELOPER
GMI Software
Wrocław, Poland

CLIENT
Acme Inc.
Berlin, Germany

1. Scope of work

The Developer will design, build and deliver a mobile application for iOS and Android as described in Schedule A, including a document viewer that opens large PDF files, lets users search them, fill in forms and print them.

Work is organised in two-week milestones. At the end of each milestone the Developer demonstrates the result and the Client confirms acceptance in writing within five business days.

2. Deliverables

The Developer delivers the source code, build scripts and documentation for each milestone, together with release builds signed for internal testing.

3. Fees and payment

The Client pays a fixed fee for each milestone listed below. Each payment is due within fourteen days of the invoice date. An invoice is issued when the Client accepts the milestone.

MILESTONE	FEE	PAYMENT DUE
1. Design and prototype	€ 18,000	Week 2
2. Document viewer	€ 24,000	Week 6
3. Forms and search	€ 21,000	Week 10
4. Release	€ 12,000	Week 12

A late payment carries interest at the statutory rate from the day after it was due. If a payment is more than thirty days late, the Developer may pause work after written notice until the payment arrives.

Payment is made by bank transfer to the account shown on the invoice. Each party bears its own bank charges.

4. Changes

Either party may propose a change to the scope in writing. The Developer estimates the effect on the schedule and the fees within five business days, and the change applies once both parties sign it, including any change to the payment schedule.

5. Intellectual property

On full payment of each milestone, the Developer assigns to the Client all rights in the work delivered in that milestone. Open-source components remain under their own licences, which the Developer lists in the documentation.

6. Confidentiality

Each party keeps the other party's confidential information secret and uses it only to perform this agreement. This duty survives termination for three years.

7. Warranty

For ninety days after the final milestone the Developer fixes, free of charge, any defect that makes the application depart from Schedule A. The warranty does not cover changes made by anyone else.

8. Term and termination

This agreement runs until the final milestone is accepted. Either party may end it with thirty days' written notice. On termination the Client pays for the work done up to that day, and the final payment covers any milestone in progress pro rata.

9. Liability

Neither party is liable for indirect or consequential loss. Each party's total liability is limited to the fees paid under this agreement in the twelve months before the claim.

10. Signatures

Signed by the authorised representatives of the parties.

Schedule A: General terms

A.1 Notices

Notices under this agreement are made in writing and sent by email to the contacts named in Schedule B. A notice takes effect on the business day after it is sent.

A.2 Governing law

This agreement is governed by Polish law. The parties first try to settle any dispute by negotiation; failing that, the courts of Wrocław have jurisdiction.

A.3 Entire agreement

This agreement, with its schedules, is the whole agreement between the parties and replaces any earlier proposal. A change is valid only in writing, signed by both parties.
